Comments:

- It is possible that the location will be very busy and that parking may be an issue so it is essential that we arrive early.
- We need to arrive as a group so we can park together if possible.
- I am not aware of any restrictions associated with Covid that will cause a problem.
- It would be preferable to arrive early enough to secure parking in Area 1 in front of the café, hopefully a 7.00 am arrival will help with this as we will be able to observe events from our meeting place at Mitre 10.
- There should be plenty of options for breakfast.
- RSVP's are not required but they would be appreciated so that we know in advance who is attending. This will allow me to inform club members who are considering attending what the likely roll up will be.
